

Carlos Mendes

Machine Learning Engineer

SUMMARY / Objective:

ML Engineer specializing in LLMs and computer vision. ex-Google Brain intern. Strong MLOps background.

Work Experience

ML Engineer — DeepVision AI (May 2021 - Present)

Designed computer vision pipeline (YOLOv8) for defect detection in manufacturing. Achieved 97.3% accuracy. Deployed on edge devices (NVIDIA Jetson).

Junior ML Engineer — SparkAI (Jan 2019 – Apr 2021)

Fine-tuned BERT-based models for text classification. Built MLflow pipelines. Maintained CI/CD for ML workflows.

Skills

PyTorch, TensorFlow, Hugging Face, MLflow, Kubernetes, Python, C++, CUDA, AWS SageMaker

Education

M.Sc Artificial Intelligence – TU Munich (2019)
